

NAS App Operating Instructions Manual

Transmission (BitTorrent Client)

❖ Downloading a torrent file.

Step 1: Find a torrent tracker website. E.g. [Torrent Crazy](#), [BitSnoop](#).

Step 2: Search for your desired file.

Step 3: Choose a healthy torrent file.

Step 4: Click on the 'Download Torrent' button and save it to your disk.

The image shows a sequence of steps on the BitSnoop website:

- Step 1:** The search bar contains the text "trailer thor".
- Step 2:** The "Search torrents" button is highlighted.
- Step 3:** The search results for "trailer thor" are shown. The first result, "Thor 2 The Dark World Epic Trailer", is highlighted.
- Step 4:** The "Download Torrent" button is highlighted on the detailed view of the selected torrent.

The detailed view of the "Thor 2 The Dark World Epic Trailer" torrent shows:

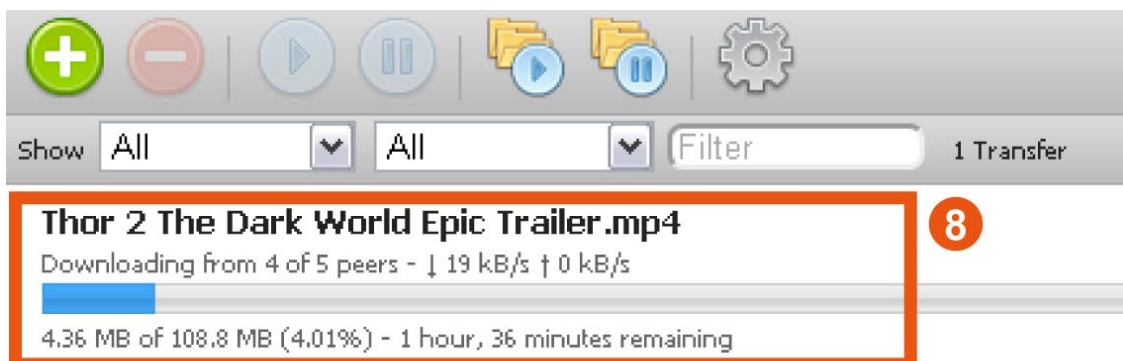

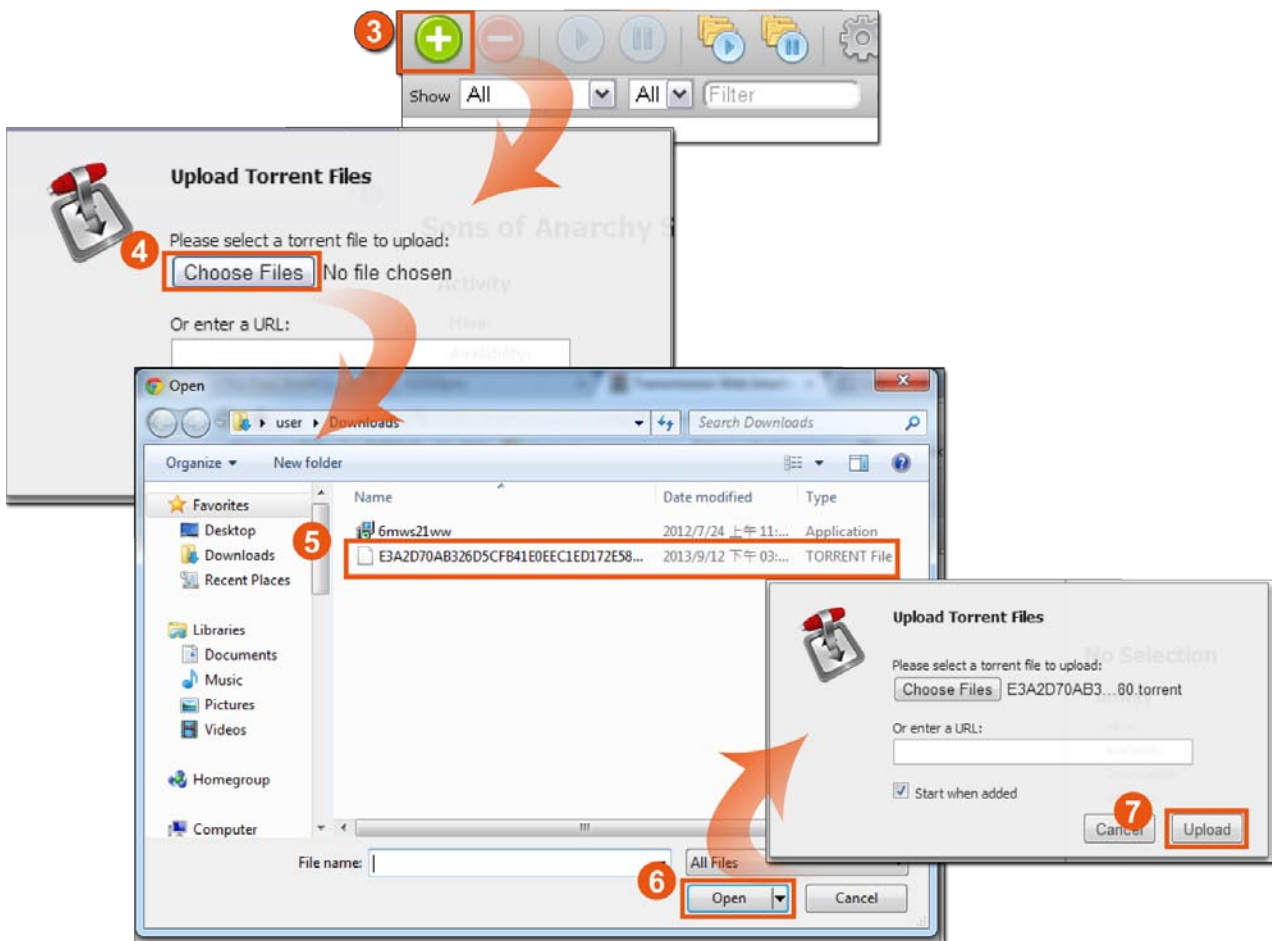

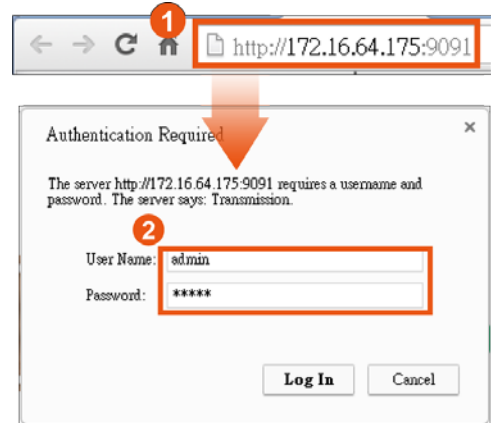

- File size: 103 MB
- Health: 18 / 3
- Age: 1 month old
- Rate torrent: Legit (green), Fake (orange)
- Download Direct: No client needed!
- Magnet Link: Includes 6 trackers
- Download Torrent: Mirrored by [BitSnoop](#), Add trackers manually!
- Mirrors: [Mirror #2 \(Zoink.it\)](#), [Mirror #3 \(Torrage.ws\)](#), [Mirror #4 \(Torcache\)](#)
- Search options: [Search IsoHunt](#), [Search Google](#)

❖ Downloading the torrent's contents

Step 1: Enter [http://\[Thecus_NAS_IP_or_DDNS\]:9091](http://[Thecus_NAS_IP_or_DDNS]:9091) in your browser to access Transmission's web interface.

Step 2: Enter your user name and password. The default is admin / admin.

Step 3: Click on the '+' button and select the torrent file. The downloading should start immediately.

Step 4: After the download completes, you can find the files on your Thecus NAS. The default location is `_P2P_Download_\bt-download-dir\`.
